HIROSHIMA UNIVERSITY

(Hiroshima)

Towards the Integration of Theory and Practice in Education

About Hiroshima University

(1) Characteristics and History

In 1949, Hiroshima College of Literature and Science and Hiroshima School of Education were merged, and Hiroshima University was born. Hiroshima University has a reputation as a leading university among education universities in Western Japan, as well as being prominent among all the universities of Japan for its large number of students.

Hiroshima University consists of 11 faculties and 12 graduate schools, and is performing the education and research activities corresponding to various demands in modern society such as informatization, internationalization, lifelong learning, and international cooperation. Aside from the undergraduate programs, Hiroshima University offers a variety of unique research centers including the Research Institute for Higher Education, Institute for Peace Science, International Center, and the Research Institute for Radiation Biology and Medicine.

The Faculty of Education and Graduate School of Education are prestigious institutes in the area of education in Japan, developed from Hiroshima Higher Normal School (1902), Hiroshima University of Literature and Science (1929), and School of Education (1943), etc. These schools have produced not only a great number of leading teachers for preschools, primary schools, junior and senior high schools, and special needs schools, but also researchers in the areas of school education, educational studies, psychology, teaching Japanese as a second language, and etc.

In 1995, Hiroshima University was moved from Hiroshima City to Higashi-Hiroshima, apart from the Faculties of Medicine and Dentistry which remain in Hiroshima City. Separated from the bustling city and surrounded by abundance of nature, the vast Higashi-Hiroshima Campus provides the perfect study environment.

Faculties: Integrated Arts and Sciences, Literature, Education, Law, Economics, Science, Medicine, Dentistry, Pharmacy, Engineering, Applied Biological Science

Graduate Schools: School of Integrated Arts and Sciences, School of Literature, School of Education, School of Social Sciences, School of Science, School of Advanced Sciences of Matter, School of Health Sciences, School of Engineering, School of Biosphere Sciences, School of Biomedical Sciences, School for International Development and Cooperation, and Law School.

Hyogo University of Teacher Education (Hyogo)

Special Features of the Course

The Hyogo University of Teacher Education has specialists in a variety of educational fields supporting its "Graduate School for Teaching Staff". Research of timely and essential concern at the schools is conducted in collaboration with elementary, middle, and senior high school teaching staff.

◇ The Graduate School Overview

(1) Outline and characteristics of the Graduate School

- The Graduate School (Master's course) at Hyogo University of Teacher Education primarily provides graduate students with opportunities to engage in higher levels of school education research activities.
- The Graduate School (Master's course) consists of School Education ("Culture, Education and Communication", "Infant and Early Childhood Education", "School psychology", "Clinical Psychology), Special Support Education ("Human Development and Disabilities", "Programs for Special Support Education Coordinator"), and Subjects and Related Areas of Education ("Language Studies", "Social Sciences and the Humanities", "Mathematics and Natural Sciences", "Fine Arts and Music", "Human Life, Health Sciences and Integrated Studies), School Leadership and Management, Advanced Professional Development in School Education ("School Administration", "Curriculum and Instruction for Expert Teachers", "Moral and Career Education and Psychology", "Advanced Elementary Teacher Education")
- Advanced Professional Development in School Education, Professional Degree Program (Graduate School of Education) was established in the Graduate School of Education.

(2) Number of graduate students (As of May 1, 2008)

Master's course: 766 Doctoral program: 126

(3) International Exchange (past 5 years)

Fiscal year	2006	2007	2008	2009	2010
Total number of international Students	59	71	79	114	120
Number of international Teachers in "Teacher-training" Program	5	3	6	6	7

◇ Outline of the Course

The teacher-training program at Hyogo University of Teacher Education (HUTE) is designed for school teachers from foreign countries (referred to as international school teachers) seeking for higher levels of pedagogical competence and abilities. This program provides a broad range of opportunities for interdisciplinary study and research in school education. The Graduate School teaching staff are experts in all fields of school education and provide research opportunities to meet the needs and interests of the international school teachers. Almost two-thirds of the Japanese graduate students of HUTE are in-service teachers. The international school teacher is thus able to collaborate with his or her Japanese teacher counter-part and exchange views on teaching methods and educational practices.

(1) Japanese language training: October 1, 2011 – March 31, 2013 (18 months)

The international school teachers are required to take the Japanese Language Course at an institute (usually at Kobe University) for 6 months: October 1, 2011 – March 31, 2012. Then, supplementary classes for Japanese language are offered at HUTE (once a week): May, 2012 – March, 2013. "Japanese and Japanese Culture" (30 hours) and "Current State of Education in Japan" (30 hours) are also provided in the Graduate School: April 1, 2012 – March 31, 2013.

(2) Professional studies: April 1, 2012 – March 31, 2013 (One year)

Each international school teacher pursues his or her professional training according to his or her individual program; taking classes with Japanese graduate/undergraduate students, special classes in English, if necessary, a special seminar under the guidance of the international school teacher's academic supervisor, and educational practicum at the university's attached elementary and secondary schools. The program is based on the international teachers' academic interests, Japanese language ability, and professional competence. Since most classes are conducted in Japanese, it is desirable to achieve a certain level of Japanese language ability through the six months of language training in Japan. It is possible, however, to complete studies in English in some fields.

(3) A Graduate School teaching staff member will serve as an academic supervisor providing on-going. Upon acceptance into the program, the international school teacher collaborates with his or her academic supervisor via e-mail to develop a teacher training plan. By the end of program, international school teachers are required to write a Master's thesis on their research studies and make a class presentation under guidance of their supervisors.

(4) Study Tours, Fieldtrips, and other Educational Activities

The Kato City International Exchange Association and volunteer organizations provide international school teacher study tours, cultural fieldtrips, and exchange parties and meetings.

Iwate University (Iwate)

Features of the Program: (1) Intensive Japanese language study and graduate research courses offered on the same campus,
(2) The opportunity to participate in the school internship program.

◇ General Information about Iwate University

Iwate University is 2-and-a-half hours from Tokyo by bullet train and is located in the city of Morioka, which has a population of 300,000 and is surrounded by nature. The university consists of 4 faculties and 6 graduate degree programs. There are 5,164 undergraduate students and 846 graduate students. The student to teacher ratio in the Faculty of Education is **13:1**, ensuring that students and faculty have close contact. There are currently 183 international students, mainly from Asia, at Iwate University. Thus far, the university has accepted a total fourteen teacher-trainees from 8 countries. The Graduate School of Education offers programs for all subjects taught in secondary education, and has four affiliated schools: a kindergarten, an elementary school, a junior high school, and a school for the handicapped. This environment enables the teacher-trainee to study education theoretically and practically.

◇ Outline of the Program

Enrolment Limit: 3

October 2011 ~ March 2012

Teacher-trainees spend 15 to 17 periods a week for a span of 15 weeks in an intensive Japanese program at the Iwate University International Center.* Participants learn basic Japanese for their daily lives and research. The center also offers courses on Japanese culture and organizes various events for international students, among which includes a ski trip.

April 2012 ~ March 2013

(Summer Recess: August and September, Winter Recess: Late December to early January)

Teacher-trainees take lectures and seminars at the graduate or undergraduate level**, receive guidance from their academic advisor, and write research papers. They also “experience” Japanese education through participating in the school internship program. At the end of this program, they will receive a certificate of completion.

* After the intensive Japanese study has finished, students are still eligible to take Japanese classes.

** A Japanese graduate student serves as a tutor.

◇ Housing

The International House is an on-campus housing facility for international students. They can live there for up to 1 year. They are also eligible to live in a university dorm near campus. There are many affordable apartments available for rent near campus. (The monthly rent for a 20 square meter apartment is about ¥40,000) See the following website for details about the International House:
