

Nara Women's University (NARA)

- Practical training in collaboration with the attached and neighboring schools
- Well-managed small group education according to the research themes of students

◇ University overview

○ Characteristics and history

Nara Women's University has its beginning in the former Nara Women's Higher Normal School founded in 1908, and had entered its 100th anniversary in May of 2009. Since its foundation, Nara Women's University has fulfilled our role as an institute providing women with education at the highest level.

Our campus is located in the central part of Nara City where many historical legacies have been found. Within such beautiful sites, the university is comprised of three undergraduate faculties, the Faculty of Letters, the Faculty of Science, and the Faculty of Human Life and Environment. We also have the Graduate School of Humanities and Sciences, offering high level of academic research education. While small in scale, we strive for an individualized approach to education and research.

In 2004, the International Exchange Center was set up to promote international exchange activities. We have concluded exchange agreements with 29 universities overseas, and about 150 international students are currently enrolled.

Naruto University of Education offers a core subjects "Education and Culture in Japan" designated for Teacher Trainees. Academic supervisors are ready to help the trainees to meet their individual needs for professional development, and the trainees may attend regular graduate courses of his/her specialization.

◇University Overview

○Outline and Characteristics of the University

Naruto University of Education (NUE) was established on October 1, 1981 by the Japanese government to respond with a new approach to social demands. It is designed to retrain teachers from nationwide schools through advanced course work and research in graduate programs as well as to train elementary and secondary school teachers in undergraduate programs.

About two thirds of the graduate-school capacity is allotted to applicants who have three or more years of experience as elementary or secondary school teachers. Master's program aims to produce elementary and secondary school teachers who have specialized knowledge concerning the areas and subjects and enough teaching competence. Professional degree course aims to produce elementary and secondary school teachers who have problem solving abilities and will be leaders in their schools and communities.

•Geographical Setting of University:

Naruto is in Tokushima Prefecture on Shikoku Island. The campus is located about 4 km from the city center, surrounded by the beautiful sea and hilly country. It is an ideal surrounding for study and research. Furthermore, the city is conveniently accessible from Naruto, with the Kobe-Osaka-Kyoto being within a couple of hours trip.

Niigata University

Niigata University offers five Programs for foreign students and researchers who have various interests in the practices and system of education in Japan. Within these programs, students can not only have personal guidance from advisors and attend to related seminars but also have chances to visit actual sites of educational practices according to their research themes.

◇ Outline of Niigata University

Niigata University was established in 1949 in Niigata City as the center for higher education and research in the areas along the Sea of Japan. The University has nine faculties – medicine, dentistry, law, agriculture, literature, economics, school education, natural sciences, engineering – six graduate schools and Medical and Dental Hospitals, where about 12,700 students receive undergraduate and graduate education and about 2,800 research staff and officers work. Its two campuses are located in the center and the west side of the City: *Asahimachi* campus where Faculty of Medicine, Faculty of Dentistry, the Hospital and attached schools of Faculty of Education are located and *Ikarashi* campus where other faculties including Faculty of Education are. You can go to Niigata City by Shinkansen Bullet Train from Tokyo in two hours. Niigata City commands Japan Sea and, in its behind, there spreads *Echigo* Plain, the biggest plain in Japan. Everyone who visits our university for the first time is surprised to know that there exists the intellectual community surrounded by beautiful nature within two hours reach from Tokyo. All the people who have ever lived in Niigata are impressed with the high amenity of the city and the traditional Japanese food still firmly rooted in the daily life. The undergraduate education at the Faculty of Education is constituted of two courses. The one is for teacher training and the other is for art, music and sport. It has around about 1,700 students and 100 research staff. The majors of the research staff cover such wide area as art, music, sport, physics, chemistry, biology, history, sociology, politics and education.

International Activities of Niigata University

- International agreements on the exchange of scholars and students: 27 cases (12 countries).
- International agreement between faculties: 146 (23 countries/districts).
- Foreign students: 436 students from 30 countries.
- Number of the teacher training foreign students: 3 (from 3 countries)

◇ The Teacher Training Course outline

1 Characteristics of the Program

We are going to provide five Programs, which will satisfy the various interests of foreigners on Japanese educational practice and system. Each Program is organized and run by research staff at Faculty of Education, who have profound knowledge and wide experiences on the theme covered by Program. If necessary, the programs will arrange study visits to schools attached to the Faculty or in local districts.

2 Number of students to be accepted: 10 (2 in each Program).

3 Outline of the Courses

(1) Japanese Language Education

During the first six months, international teachers are to receive Intensive Course on Japanese provided by the International Exchange Support Center of Niigata University . The course provides three classes per day for six months. No qualification is required to receive the course.

(2) Content of the Programs

After the six months intensive training on Japanese, international teachers will start one-year training in the Programs. At the beginning, each Program provides the introductory lectures – 6 to 12 hours –. Upon the discussion with the Program staff, international teachers decide the course(s) and seminar(s) they will take part in. If necessary, the staff will arrange study visit to school or related authorities.

① Program on Peace Education

History of Peace Education in Japan, the Current Issues Surrounding Peace Education. International students will be required to develop educational materials on peace education for students of their own countries.

② Program on Math & Physics Education

The Characteristics of Math & Physics Education in Japan, the Impacts of the Recent Education Reform, Which Emphasizes the Relaxed Style Education.

③ Program on Sport Education

Comparative Study of the Philosophy of Japanese Martial Arts and the Western Philosophy of Sports, the Meanings of International Communication through Sports, the Scientific Approach to Sport Education.

④ Program on Information Technologies & Education
Innovation of Educational Practice by Information technologies and Internet, development of Educational Software.

⑤ Program on Education in Japan

The Collectivistic Aspect of Educational Practice in Japanese Classrooms, the Characteristic of Student Problematic Behavior in Japan, History of Literacy in Japan, Recent Education Reform in Japan.

◇ Accommodation

•Niigata University International House (*Niigata-Daigaku Kokusai Koryu Kaikan*).

Facilities: Bath and toilet unit, kitchen unit, hot water facilities, air-conditioning and heating equipment.
Equipment: Bed, desk, chair, bookshelf, wardrobe, cupboard with table, gas cooking unit, refrigerator, desk lamp, and fire extinguisher.

It is located in campus. Also, university has three apartments for international students outside of campus with almost the same condition of International House. But, due to the limited number of rooms, not all applicants can move into.

•Many real estate agents provide apartments in the nearby area of the campus. The average rent fee is ¥20,000 to ¥50,000 for one-bed room.

University of the Ryukyus (Okinawa Prefecture)

Teaching practically based on Okinawa's geographical and cultural characteristics

◇ University overview

○ Characteristics and history

The University of the Ryukyus was established under United States military occupation in 1950 and became a national university of Japan in 1972. At the time of our university's founding we received valuable guidance from Michigan State University. Today, we still try to uphold the very best traditions of the American university system with both local and global features.

The University currently consists of seven faculties (Law & Letters, Tourism Sciences and Industrial Management, Education, Science, Medicine, Engineering, and Agriculture), seven graduate schools (four Master Programs in Tourism Sciences, Education, Medicine and Agriculture; four Master and Doctoral Programs in Humanities and Social Sciences, Medicine, Health Science, Engineering and Science; and one Doctoral Program at the United Graduate School of Agricultural Sciences, Kagoshima University), Special Support Education Programs, and a Juris Doctoral Program. There are approximately 8,400 students and 1,700 teaching and administrative staff.

○ International Exchange

- Number of International students: 273 (from 41 countries)
- International exchange agreements with 67 universities in 27 countries/area overseas.
- Number of Teacher Training students (1993~): 6 from Myanmar, 4 from Thailand, 1 from Samoa, China, Brazil, Korea, Argentina and Peru.

◇ Outline of the course for Teacher Training students

○ Characteristics of the program :

To meet individual needs for professional development, academic supervisors will give tutoring and guidance to the trainee teacher in his or her laboratory. There will be frequent opportunities for information exchange with Japanese students, including actual schoolteachers studying at the University as graduate students.

○ Number of students to be accepted :8 or 9 people

○ Outline of the course

- Japanese language education
 - a) Basic courses :Mainly for beginners of Japanese, trainee teachers take intensive Japanese language courses which concentrate on Basic Japanese and learn about Japanese society and culture.
 - b) Japanese Language Classes for Research and Graduate Students: trainee teachers who so wish can take these classes, from beginners' to the advanced level.
- Specialized training
 - a) Supervisors will give appropriate guidance for each trainee to master fundamental items of training in specialized fields of study. While classroom instruction is delivered predominantly in Japanese, individual instruction may be given in English.
 - b) If interested, trainee teachers may participate in lectures/seminars at undergraduate or graduate level as auditors.
 - c) At the end of the period of study, each trainee teachers writes a paper, and receives a certificate of attendance.
- Others
 - a) The Elementary and Junior High Schools attached to the Faculty of Education are very useful for actual education training.
 - b) A Japanese tutor is assigned to help each trainee teachers not only to study, but to adjust to their new environment for the first year.
 - c) There are various events such as International Student Festival, parties, etc.

◇ Accommodations

Basically, we offer accommodation on campus for this program trainee teachers. If no vacancy, we try to introduce apartments near campus.

○ Number of rooms
