

2<sup>nd</sup> intensive workshop in Iwaki  
(July 31-August 4, 2012)

Expressing our Future

Completion of dome construction started in spring

## Talking about the disaster experience

Expressing changes in mood with one line, and using this to introduce oneself

← Invited to the “Cheer! Nippon” charity match, and met with Sadaharu Oh and JFA chairman Saburo Kawabuchi. Received many charity goods.

→ Gave a highly-praised presentation in an event at Uniqlo. Entered “Clothes for Smiles,” a project inviting ideas for Uniqlo’s human resource development, and won 4<sup>th</sup> place out of 739 ideas.

→ Andreas Schleicher, OECD's Deputy Director for Education and Skills, met with the Date team. He had some of the jelly the students developed jointly with JA, and encouraged them to "research the market and definitely make a success of it."

← Prof. Schleicher made a courtesy visit to the president of Fukushima University. In the evening he gave a talk on the theme of "recovery education and innovation," which was followed by a discussion on education in Fukushima Prefecture.

Product development by  
junior high school pupils

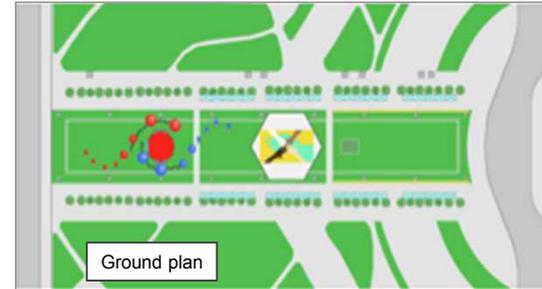

Commercialization of jelly  
developed with local JA  
(from May, 2013)

# Paris festival preview (May 1-6, 2013)

# Perspective image

Explanation to deputy mayor  
of Paris Anne Hidalgo about  
the project.

Also covered by the press,  
with an article in an  
influential local newspaper!

# Lunch party of Permanent Delegation of Japan to the OECD at Ambassador Yoshikawa's residence

# Presentation and press conference at OECD Headquarters

# Presentation by students to companies and relevant organizations

“Please be our official partner”

Citizens packed the room. Concerns about radioactivity are high.

Discussion with Parisian residents at the juvenile library in the 19<sup>th</sup> Arrondissement. The students were undaunted by the language barrier.
