Overview of Research and Support Center on Higher Education for the Hearing and Visually Impaired

## 設置目的・沿革・構成

Purpose, history and structure

筑波技術大学は、1987年に設立された筑波技術短期大学が2005年に改組・設立された聴覚・視覚障害者のための我が国唯一の大学です。障害者高等教育研究支援センターは、基礎教育を中心とした障害者教育実践とカリキュラム開発及び障害補償機器・情報保障システムの研究開発を目的とします。さらに、聴覚・視覚障害者の在学する全国の大学等への支援、世界の聴覚・視覚障害者に対する教育方法開発のシンクタンクの役割を担うことが期待されています。センターは天久保（聴覚障害系）と春日（視覚障害系）の2つのキャンパスにまたがっています。

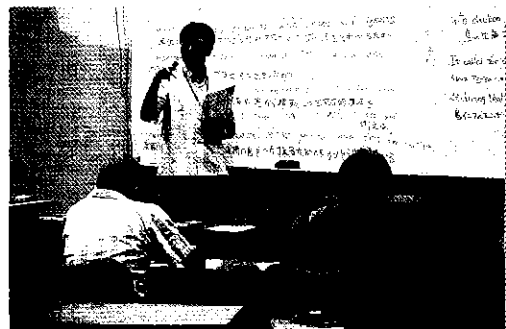

Tsukuba University of Technology was established in 2005 as the only university in Japan for hearing and visually-impaired students by reorganizing the Tsukuba College of Technology, which was founded in 1987. The purpose of the Research and Support Center on Higher Education for the Hearing and Visually Impaired includes educating students with a focus on general education, the development of education curricula, and research and development on assistive technology and systems that guarantee equal access to information. The university also plays a role in providing support to universities and other educational facilities all over Japan with hearing and visually-impaired students and as a think tank for the world. The Center is located on two campuses, Amakubo (for the hearing impaired) and Kasuga (for the visually impaired).

## 障害者基礎教育研究部

Division of General Education for the Hearing and Visually Impaired

基礎教育研究部は、主に初年次教育と基礎教育を担当する「障害者基礎教育実践部門」と聴覚・視覚障害者のための高等教育課程の開発研究を行なう「障害者基礎教育課程研究部門」からなります。

The Division of General Education is made up of the General Education Practice Section for the Hearing and Visually Impaired, which focuses on first-year education and general education and the Section for Curriculum Development in Higher Education for the Hearing and Visually Impaired, which focuses on research and development of higher education curricula for hearing and visually-impaired students.

## 障害者支援研究部

Division for Research on Support for the Hearing and Visually Impaired

障害者支援研究部は、情報保障のため補償機器・システム及び教材の研究開発を行なう「障害補償システム開発研究部門」と障害補償技能に関する指導や、就職支援等を行なう「障害者能力開発研究部門」及び「支援交流室」から構成されています。

The Division for Research on Support for the Hearing and Visually Impaired is made up of the Research and Development Section for Assistive Technology for the Hearing and Visually Impaired, which focuses on the research and development of assistive technology, systems and educational equipment for the guarantee of equal access to information, the Research Section on Ability Development of the Hearing and Visually Impaired, which focuses on education in assistive technologies and employment guidance, and the Office of Support Coordination Services.

### 支援交流室

Office of Support Coordination Services

支援交流室では、開学以来培ってきた知識と経験や他大学とのネットワークを生かして、他大学で学ぶ聴覚・視覚障害学生の高等教育に関する相談・支援を行なっています。

The Office of Support Coordination Services uses the knowledge, experience and networks with other universities that the school has developed since its opening, to provide consultation and support for the higher education of students with hearing/visual impairments who are studying at other universities.
