National University Corporation Tokyo Medical and Dental University Designated National University Corporation Initiative Report Summary

"Total Health Care" through the Generations for All Mankind
Forming the World's Leading Health Care, Science Base by Cultivating Professionals with Knowledge and Humanity

Excellence in Research Education: International center of excellence for Medical/Dental/Data Science

Research Capability

◇ Promote **Key Research Areas**
Further development of prominent areas
◇ Develop **Advanced Medical Dental Research Center**
◇ Enhancement of **Top Science Incubator Function**
◇ Launch **Integrated Research Evaluation Meeting** (TBD)
◇ Promote **Integrated Arts & Sciences Research**

International Collaboration

◇ **Multi-level Collaboration** with **International Universities**
◇ Support **Short-/Medium-term Stays** by Researchers
◇ International Expansion Using **TMDU's Curriculum & Training Content**

Talent Development

◇ Establish a **Medical Research University Talent Development Model**
Creating an outstanding clinician-scientist training system
◇ **Social Contribution** to Society 5.0
Training the world's leading medical data scientists
◇ Recruit **Excellent Domestic/International Students/Faculty Members**
Improving educational/research environment

Social Collaboration

◇ Establishment of **Institute of Innovation Promotion** (TBD)
◇ Establishment of a **New Collaborative Workspace** for Industry, Academia, Government Agency, & Private Partners
◇ Collaboration with **Local Governments / Ministries**

Governance System

◇ Strengthen **Integrated Institutes**
◇ Build an **Advanced Advisory Board**
◇ **Internal QA , Information Disclosure & International Publicity**

Financial Position

◇ Strengthening the **Donation Acquisition System**
◇ Strengthen **Management Base** by Effectively Utilizing **Assets**
◇ Develop **Business** in the Rapidly Growing **Data Business Field**
◇ Develop University-originated **Venture Companies**

Contribution to Society: Solving Social Issues as a Role Model for Medical Research Universities

Forming the World's Leading Health Care, Science Base by Cultivating Professionals with Knowledge and Humanity

Fundamental Goals

QS World University Rankings 2019 (Medicine) Top100 (3rd in Japan) → **Top 50**
QS World University Rankings 2019 (Dentistry) Top10 (1st in Japan) → **Top 1**
