

Part 1 Science, Technology, and Innovation Starting on the Regional Level

Science, Technology, and Innovation Starting on the Regional Level	2
Chapter 1 Regional Science, Technology, and Innovation Policies	4
Section 1 Changes in Regional Science, Technology, and Innovation Policies Based on Science, Technology, and Innovation Basic Plans	4
Section 2 Various Regional Science, Technology, and Innovation-Related Policies Within the Government	5
Chapter 2 Regional Large-Scale Science, Technology, and Innovation Bases	8
Section 1 Open Innovation KAWASAKI	8
Section 2 KOBE Biomedical Innovation Cluster	11
Chapter 3 Various Science, Technology, and Innovation Efforts That Take Advantage of Regional Characteristics and Strengths of Universities	15
Section 1 The Center of Well-being Regional Society Innovation, etc. of Aomori Prefecture, Hirosaki City, and Hirosaki University	15
Section 2 Iwamizawa City/Hokkaido University Industry-Academia Regional Co-Creation Project	18
Section 3 Initiative of the Tsuruoka Science Park in Yamagata Prefecture	19
Section 4 Collaboration between Universities and Regions to Strengthen the Semiconductor Industry in Kumamoto Prefecture, etc.	21
Section 5 Formation of a Research Complex in Tohoku University	23
Section 6 Various Initiatives for Overseas Expansion	24
(1) Establishment of the Global Aqua Innovation Center by Shinshu University, etc.	24
(2) Development of Autonomous Driving Technology by a Startup Originating from Nagoya University	27
Section 7 Other Various Efforts	28
Chapter 4 Science, Technology, and Innovation by Colleges of Technology (KOSEN) Based in Regions Across Japan	30
Section 1 What are Colleges of Technology (KOSEN)?	30
Section 2 Collaborative Initiatives with Local Communities Supported by the Inter-College Network	31
Section 3 Innovations from Colleges of Technology (KOSEN)	32
Chapter 5 Conclusion	37
Supporting Materials	39

Part 2 Measures Implemented to Promote Science, Technology, and Innovation Creation

Chapter 1	Development of Science, Technology, and Innovation Policies	40
Section 1	Science, Technology, and Innovation Basic Plan	40
Section 2	Council for Science, Technology and Innovation (CSTI)	43
1	Major Initiatives of CSTI in FY2022	44
2	Changes in the Number of Papers and Number of Adjusted Top 10% Papers Strategically Prioritizing the Science and Technology Budget	44
3	Evaluation of Nationally Important Research and Development	47
4	Major Agenda Items of Expert Panels, etc.	48
Section 3	Integrated Innovation Strategy	49
Section 4	Science, Technology, and Innovation Administration System and Fund Cycle Invigoration	50
1	Science, Technology, and Innovation Administration System	50
2	Fund Cycle Invigoration to Create Knowledge and Value	54
Chapter 2	Science, Technology, and Innovation Policy Toward Realization of Society 5.0	57
Section 1	Transformation into a sustainable and resilient society which ensures the safety and security of the people	57
1	Creating New Value through the Fusion of Cyberspace and Physical Space	57
2	Promoting Social Change and Discontinuous Innovation to Overcome Global Issues	63
3	Building a Resilient, Safe, and Secure Society	90
4	Formation of an innovation ecosystem that will serve as the foundation for creating new industries for value co-creation	110
5	Urban and regional development that will serve as infrastructure to pass on to the next generation (development of smart cities)	119
6	Promoting R&D and social implementation to resolve various social issues and utilizing Convergence Knowledge (So-Go-Chi)	120
Section 2	Expanding the frontier of knowledge and strengthening research capabilities as a source of value creation	158
1	Reconstruction of the environment that generates diverse and outstanding research	158
2	Construction of a new research system (promotion of open science and data-driven research, etc.)	181
3	Promoting university reform and enhancing functions for strategic management	191
Section 3	Education and Human Resources Fostering to Realize the Well-being of Individuals and the Challenges They Face	197
Supporting Materials		211
