

Results of Additional Environmental Radiation Monitoring Survey  
in Fukushima Prefecture

June 6, 2011

Disaster Provision Main Office of Fukushima Pref. (Nuclear Power Team)

1. Monitoring date

June 3(Fri), 2011

2. Surveyed facilities

An urban park in which the air dose rate exceeded the government's provisional standard value (3.8  $\mu\text{Sv/h}$ ) in the past survey, and the results of the survey have not fallen below said value for two consecutive weeks

One facility (Annex 1: Sakabuta Park)

3. Results

As a result of the additional monitoring survey, the air dose rates were lower than the government's provisional standard value in all of the facilities surveyed.

4. Measures to be taken, etc.

As the average dose of the overall park and part of monitored values were below the government's provisional standard value in both the present and previous surveys, the facility manager will be requested to lift the restrictions on use.

## Results of Additional Monitoring Survey of Environmental Radioactivity Levels in Fukushima Prefecture (Parks)

June 6, 2011
