Marking Criteria

1 Task Fulfilment

Two content points attempted, but minimal communication is achieved, as meaning often breaks down.

- Grammar
 - There are serious errors ('It tell for a little boy who see a bream one night with him bied mum and her tell him to hear dady granny whey love him.'), with a range below the expected at B1 level.
- Vocabulary
 Range and spelling are limited and the message is often difficult to understand.
- Organisation
 It is reasonably organised, uses basic linkers and is mainly coherent.

5 Fail

Dear Maria

I thought that I should tell you about my favorite book and why you should read it.

My favorite book is called «mysteries in the town». The book is about five teenagers that have a dream of being detectives one day. These five teenagers made a team and they solve mysteries together. But one day a mini market gets robbed by two thieves. Finally the team solves the mystery of the robbery.

I think you should read it withought a dought because it has action and plot twists. I think that you will love it once you read it.

love,

Chiara

評価基準:

Task Fulfilment Both content points successfully communicated. Grammar Accurate use of B1 grammar with control ('I thought that I should tell you about...'). Vocabulary Some impressive vocabulary is used accurately, and in spite of a couple of spelling errors near the end that cause re-reading, meaning is conveyed. Organisation The text is generally well-organised and coherent, using linkers appropriately.

Reading Part 1

Read the text and the questions. Choose the correct answer for each question.

There's a reason why we love computer games

Computer games have become as much a part of our entertainment world as books and movies. Why is it that so many of us are drawn to the computer monitor or TV screen? A bit of history might help explain the phenomenon. Originally, computers were all work and no play, being expensive to build and operate. But computer engineers and designers, being overgrown kids after all, soon began to get comfortable with their big machines. It occurred to some of them that it might be a good idea to have the computer show some spaceships and planets cruising around the galaxy.

And in the 1960s a group of fun-loving computer geniuses created a game called *SpaceWar* in their idle hours. *SpaceWar* was well received by geniuses and many others as well, which motivated the geniuses to design some more fun stuff. Somehow the visual element of the games activated the imagination. Over time we got *Pong*, *PacMan* and a continually evolving string of games.

By the late 1980s, with the invention of *Sim City*, computer games software became quite sophisticated. This product expanded on what was going on in all the previous games; the players were drawn into an imaginary world. But *Sim City* actually allowed the user to create amazing cities and even worlds. Not unlike books and movies, such video games were therefore mentally very satisfying.

Also in the 1980s, a group of computer programmers began creating software that would show moving figures. The figures were stick people, but they could move their bodies to music. They had no facial features, but it was very exciting to think what might come with more powerful computers.

We have come a long way since then. The power of computers grew massively and the realism of games has taken a huge leap forward. Agood computer game draws you in to another world and, unlike a book or a movie, it offers an interactive experience. There are now hundreds of options, numerous consoles to choose from and regular upgrades to keep the excitement high. You can really develop some hand-eye coordination by playing many of the current titles out there. But the biggest reason we love our computer games is that they capture our imagination in a variety of interactive ways.

1. SpaceWarwas developed

- a) as part of a serious computer project.
- b) by computer experts in their spare time.
- to show people what space travel is like.

2. After SpaceWar, more games appeared because

- a) computer design improved.
- b) it wasn't exciting enough.
- c) people enjoyed playing it.

3. Sim Citywas different because it

- a) gave players more power.
- b) showed cities in the future.
- c) depended on advanced computers.

World's Earliest Maps?

A set of broken stones covered with manmade lines and squares, discovered at a 5,000-year-old sacred site in Denmark, may be some of humankind's earliest maps, according to archaeologists. The researchers think the stones are symbolic maps of local landscapes and were perhaps used in ceremonies by Stone Age farmers who hoped to magically influence the sun to increase the productivity of their farmlands. Pieces of 10 of the "map stones" or "landscape stones" were found in June, during an archaeological dig of a round, earth-walled 'village' at the Vasagard archaeological site on Bornholm, a Danish island in the Baltic Sea.

Excavations in the area since the 1990s have revealed hundreds of broken flat stones decorated with patterns of straight lines starting off from a central point. They are called "sun stones" or "solar stones" ("solsten"in Danish) because of their resemblance to a drawing of the sun. Archaeologists have said these artifacts are likely from the ceremonies of a Neolithic sunworshipping religion that existed about 5,000 years ago.

But the map stones are inscribed with a set of totally different pattern of squares and lines that look like fields, fences and plants, said archaeologist Flemming Kaul, the senior researcher in prehistory at the National Museum of Denmark.

"There was one particular stone that seems to be rather complicated, and we all agree that it looks like some sort of a map — not a map in our modern sense, but a stylized map," Kaul told Live Science. "And I could see some similarities with rock symbols from the Alps in northern Italy, dated to the same period of time, which are interpreted as symbolic landscapes — and that is what I believe we have found now."

The most detailed of the newly discovered map stones went on display in October at the Moesgaard Museum in Aarhus, Denmark. It measures about 2 inches (5 centimeters) across and has been broken into three pieces. One triangular piece has not yet been found, the researchers said. Kaul said the stone was probably crushed during an ancient ceremony, like what the researchers saw with many sun stones also found at the site. The pieces were then placed in the ditches that surround the sacred area sometime between 2900 B.C. and 2700 B.C., according to the archaeologists.

1.	The stones found in Denmark were worshiped by ancient farmers.	
2.	It is believed that the lines on solar stones resemble landscape marks.	
3.	The symbols on map stones are the same as those on the rock symbols in the Alps.

Write between 250 and 300 words.

Dear mum,

 $\ensuremath{\mathfrak{I}}$ write this letter for you to explain a unexpected moment that happen during our holidays in Barcelona.

First of all, when we arrived at the hotel we left our suitcases and we went for a walk in a beach near from our hotel. We saw some people and we went with them for fishing. When we arrived we waited to caught any fish. After one hour with no fish my friend Nick had the good idea to swimed and to saw if there is any fish in the sea. He fell in the sea and after few minutes he started to screamed and to called for help.

In this time I understood that we wanted help and I with my fiends fell in the sea to help him. When we took him from the sea he said to us that a poisonous fish have hurt him. In this time he took Nick from the beach and we transported him in the nearest hospital. The nurses said to us that he is good and that he staid in the hospital for few days. It was a difficult moment for us and we calmed down when nurse said that Nick is good and healthy.

To conclude, I would say to you that all are good and we'll come in Madrid very soon.

Your daughter Nastya

Marking Criteria Task Fulfilment 2 The target reader is mostly informed, and the tone is mostly appropriate with some noticeable exceptions. Grammar 1 There are many serious basic errors, particularly with infinitives and prepositions (for example, we went with them for fishing', 'we waited to caught', we had the good idea to swimed', 'he started to screamed'). Vocabulary 1 Vocabulary range is limited for C1 and there are errors with basic items, for example ' my fiends fell in the sea to help him', 'he staid in the hotel'. Organisation 1 The text has some organisation and coherence, but it is limited. Some linkers are inappropriate for the text type. Fail

Dear Dad,

Mam, Dad I have something to tell you. Well do you remember that I told about a trip that we were going with my friends? So we went to North Antarctic just to stay and have some kind of adventure for 5-6 hours. When we arrived there something horrible happened.

Chrish fell into the cold freezing water and we couldn't pull him up because we were travelling on a really large boat, so one of us had to dive in the sea with an umbrella. I know that sounds crazy but we didn't have any other equipment to pull him up so as they both grabbed the umbrella they were both trying to get on the boat. Chrish and Andrew got out of the water but they both collapsed from Hypothermia so we had to find a way to get them warmed.

Then someone showed up from the inside of the boat saying that he had been in the same situation and then he told us we need to light up a fire but first we had to sail the boat somewhere.

After two hours of trying to warm them they finally opened their eyes without even knowing what had happened.

And that was one of the craziest adventures in my life. I'm fine so don't worry.

Yours, Marta

評価基準:

Marking Criteria Task Fulfilment 2 The candidate mainly satisfies the demands of the task. Genre and tone is appropriate. Grammar 2 There is some good control, even of complex forms (for example, 'after two hours of trying to warm them they finally opened their eyes without even knowing what had happened'). There are also some relatively basic errors, for example 'I told about a trip', but these occasional errors do not impede meaning. Vocabulary 2 The candidate uses a range of vocabulary, including less common items such as 'collapsed' and 'grab', appropriately. Occasional errors do not impede meaning. Organisation 2 The text organisation is mainly appropriate to text type, coherent, using relatively straightforward linkers.

I: LanguageCert International Spoken IESOL test, Expert level, 22nd of October 2018. (candidate's name), test begins. Hello, my name is (interlocutor's full name). Can you spell your family name for me please?

- C: Yes, of course is (candidate spells out their family name).
- I: Thank you. Which country are you from?
- C: I'm from Italy.
- I: Thank you, now Part One. I'm going to ask you some questions about yourself and your ideas. First 'Daily life'. If a job offered you a reliable income but you didn't like doing it, how prepared would you be to do it?
- C: Ah no, I think that I need to find a job and, I want a job where I can feel the.... That I can do it and something that can help me in my career. I'm not interested in the salary.
- I: Thank you. Now 'Travel'. Why do some people prefer working on holidays?
- C: What…? Can you please repeat?
- I: Of course. Why do some people prefer working on holidays?

- C: Even to work on our holiday? That's why I asked again because I really don't know. If I'm on holiday, I think you should relax and because relax is important to get new ideas, fresh ideas, and so when you are back at work you can exploit them.
- I: Thank you. Now 'Shopping'. To what extent do you compare prices before you buy something?
- C: I don't compare at all. The problem is when I am going with my husband, he likes comparing and so he said… well, have you checked on the Internet before going to a shop? If I like something, I'll buy it. The price doesn't matter to me.
- I: Now 'Education'. How effective is the education system in your country?
- C: I think it's quite effective and we've got a good system where teachers are trained and they need to do a specific path before becoming a teacher, so I'm happy and satisfied about the Italian school system.
